

Monty Schrunk

Speaker, Business Owner (Suburban Sodbuster),
Content Creator, Organic Gardener & Natural Beekeeper
Email: contact@suburbansodbuster.com

I help beekeepers and prospective beekeepers move past unnatural, conventional beekeeping practices to improve pollination and independently produce honey while working with honey bees' nature.

Keynote Title:

Everything I Need to Know, I Learned From a Beehive

Abstract:

A honeybee colony is a fascinating world. The super-organism of a honeybee colony depends on a complex separation of duties, cooperation, and communication among the bees. Observing the bees can teach us lessons about our own lives. Monty will explain some facts about life inside and outside the hive and illustrate lessons we can apply to ourselves.

"You have a great presentation style/personality and create a desire to know more about what you are talking about."
