

Monty Schrunk

Speaker, Business Owner (Suburban Sodbuster),
Content Creator, Organic Gardener & Natural Beekeeper
Email: contact@suburbansodbuster.com

I help beekeepers and prospective beekeepers move past unnatural, conventional beekeeping practices to improve pollination and independently produce honey while working with honey bees' nature.

Keynote Title:

You Can Keep Bees, Naturally!

Abstract:

In the world of conventional beekeeping, practices of manipulating, feeding, and treating hives have overtaken reliance on the bees' natural processes. Returning to a more natural model of beekeeping can reduce our workload, provide a better hive environment, and improve bee health, naturally. Monty will explain 5 basic principles of "natural" beekeeping and how you can begin or transition to keeping bees in a more natural way.

"4th Year beekeeper and I thoroughly enjoyed!"

"You have a great presentation style/personality and create a desire to know more about what you are talking about."
